PRELIMINARY AMENDMENT

Sir:

Please amend the this application as follows:

IN THE CLAIMS

Please add new claims 19 through 28 as follows:

19. (new) A work machine, comprising:
- a frame having a longitudinal axis;
 - an operator cab mounted on said frame;
 - an engine enclosure mounted on said frame forward of said operator cab, said engine enclosure being devoid of a radiator assembly;
 - an engine assembly mounted on said frame and located within said engine enclosure, said engine assembly including an engine and an engine fan directing cooling air over said engine; and
